

# GES MINI STICK

This well-designed tool is ideal for use with GES carts, reaching high box stacks and loading and unloading.

Saves back and shoulder injuries and allows for happier and more efficient employees!

## Features:

- A.** The hook on the back, to assist with raising and lowering of GES cart rails.
- B.** The reverse hook hangs the GES mini stick on the cart while in use.
- C.** The top hook is used to raise and lower boxes of product, aid with stack height, and help with down stacking of product in a safer manner.
- D.** Grip-wrap on handle.

**Hanging on a GES Cart**

**Shown lifting a box**
